

Bikeboat Up

Important features of the Bikeboat Up

A fairing was added (hydrodynamic surface) increasing the top speed from 5.5 knots to 8 knots (15km/h)

Adjustable handlebar for optimal posture

Frontal rudder (eliminating control cables)

A special rubber cone on hulls end, protecting the area against wear

More robust and efficient propulsion system

Resistant anodizing finish (no peel off)

Dimensions of the Bikeboat Up

Bikeboat Rec & Bikeboat Up

The **Bikeboat** (in two versions: Recumbent and Up) is a **high performance water bike**. It is light and easy to use, drive and clean. The catamaran configuration offers great stability.

Bikeboat is the fastest and the most efficient! You can pedal for much longer without getting tired.
